## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-6, 138, 139 and 140 are rejected under 35 U.S.C. 102(b) as being anticipated by Rabe, U.S. 4,779,445.

Regarding claims 4-6, Rabe discloses a sleeve member (14) within a tube member (12) expanded to have an interior diameter substantially equal to the unexpanded inner diameter of the tubular (col. 5, lines 40-68) member.

Claims 133, 134, 136 and 137 are rejected under 35 U.S.C. 102(b) as being anticipated by Saunders, U.S. 1,225,005.

Saunders discloses in figure 7 well casing threadedly connected at a deformed region (3e, 3f), wherein casing sections (2) have the same diameter at portions away from the connection.

### ***Allowable Subject Matter***

Claims 1-3, 7, 21-25, 28, 61, 64-66, 68-77, 79-84, 86-94, 99-120, 124-129, 131, 132, 135, 141 and 142 are allowed.

### ***Response to Arguments***

Applicant's arguments filed 3 August 2007 have been fully considered but they are not persuasive.

Applicants argue the prior art of Rabe does not disclose the inner diameter of the inner tubular being the same as the inner diameter of the outer tubular.

The prior art of Rabe discloses the a difference 0.2 inches in the diameters of the inner and outer tubulars which is within a range of substantiality. The prior art of Rabe disclose the tube and sleeve are both expanded to form a positive lock which requires a degree of overlap between the outer and inner walls of the sleeve and tube respectively; which will place the diameters within the above range.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
